EXPERIENCE

Oil and Natural Gas Corporation — *Internship*

JAN 2022 - MAY 2022   Gujarat, India

Application Development- ONGC app consists of user and admin apps, enabling users to access news, manage profiles, and search for information, while the administrator's app helps them to update the content in real time.

Website Development- A simple web-based 'placement Quiz system' prototype from the perspectives of software development, end users, and research efforts. Students who would be enrolling in computer courses or registering for technologies were the subjects of this website.

EDUCATION

P P Savani University — *B. Tech in Computer Science*

2018 - 2022   Gujarat, India

Humber College — *Information Technology Solutions*

2023 - Present   Toronto, Canada

PROJECTS

YOLO - Implemented YOLO deep learning algorithm to detect Humber logo in any images. Achieved accurate and real-time detection of Humber in pictures.

Cake Order Website -Developed a responsive cake-ordering website using HTML, CSS, JavaScript, and PHP. Implemented user-friendly interfaces for browsing, customization, team information, gallery, and order display.

Hospital Management System -Designed HMS in SQL with tables for patients, doctors, professionals, appointments, salary, etc. Developed a .NET system with forms for data entry, doctor-patient assignment, and summary, ensuring uniqueness, efficiency, and multiple relationships.

Hangman Game -Designed and implemented the game using Java, featuring real-time views and a custom keypad for user input. Developed interactive gameplay and scoring mechanisms.
